

# SENATORS:

## DON'T GET FOOLED AGAIN

Last year, President Obama's Supreme Court nominee, Sonia Sotomayor, told you under oath that she supported Second Amendment rights. This year, Sotomayor ruled exactly the opposite.

Now another Obama nominee for the Supreme Court, Elena Kagan, is telling you exactly the same thing, using exactly the same words. But Kagan's record demonstrates hostility toward Second Amendment rights. As a Supreme Court clerk, as a political appointee under President Clinton, and as U.S. Solicitor General, Elena Kagan has failed law-abiding gun owners. The Constitution deserves more than lip service.

**DEFEND FREEDOM.**  
**Vote NO on Elena Kagan.**

A message from the four million members of the National Rifle Association.
